

PRO1250 DIN Rail Series Three phase

Introduction

The PRO-1250 is the 3 phase version in the PRO Series with 5 year warranty. As all other products in the PRO range.

The meter is build with the highest quality components. There is a 10/100A direct meter and a -/5A version for measuring with current transformers. In the digital meter for current transformers are 2 buttons to set ratio of the used current transformer.

Functions and features

- DIN rail mounting
- LCD 6+1 or Mechanical register
- SO output
- Most easy installation
- High Quality/Price ratio
- Indoor meter
- 5 year warranty
- 5A CT version for measuring with current transformers available
- MID pending

Technical specifications

Voltage	230 / 400V AC
Frequency	50 / 60Hz \pm 10%
Current	100A or -/5A
Power consumption	\leq 2W / 10VA per phase
AC Voltage withstand	2KV – 1 minute
Impulse voltage withstand	6KV – 1,2 μ S waveform
SO Output	SO according to DIN43864
Temperature range	-20°C ~ +55°C
Case	126 mm DIN Rail mounted
Dimensions	126x100x65 mm (wxhxd)
Accuracy Class	1

PRO1250A

PRO1250D
